Step 1: Discover Your Superfans

Your **Best Fans** are already waiting.

Check the **right side of your feed** – that's where the real magic begins.

Find your top supporters, choose one, and turn them into loyal a **Superfan** with just a click.

Your Best Fans

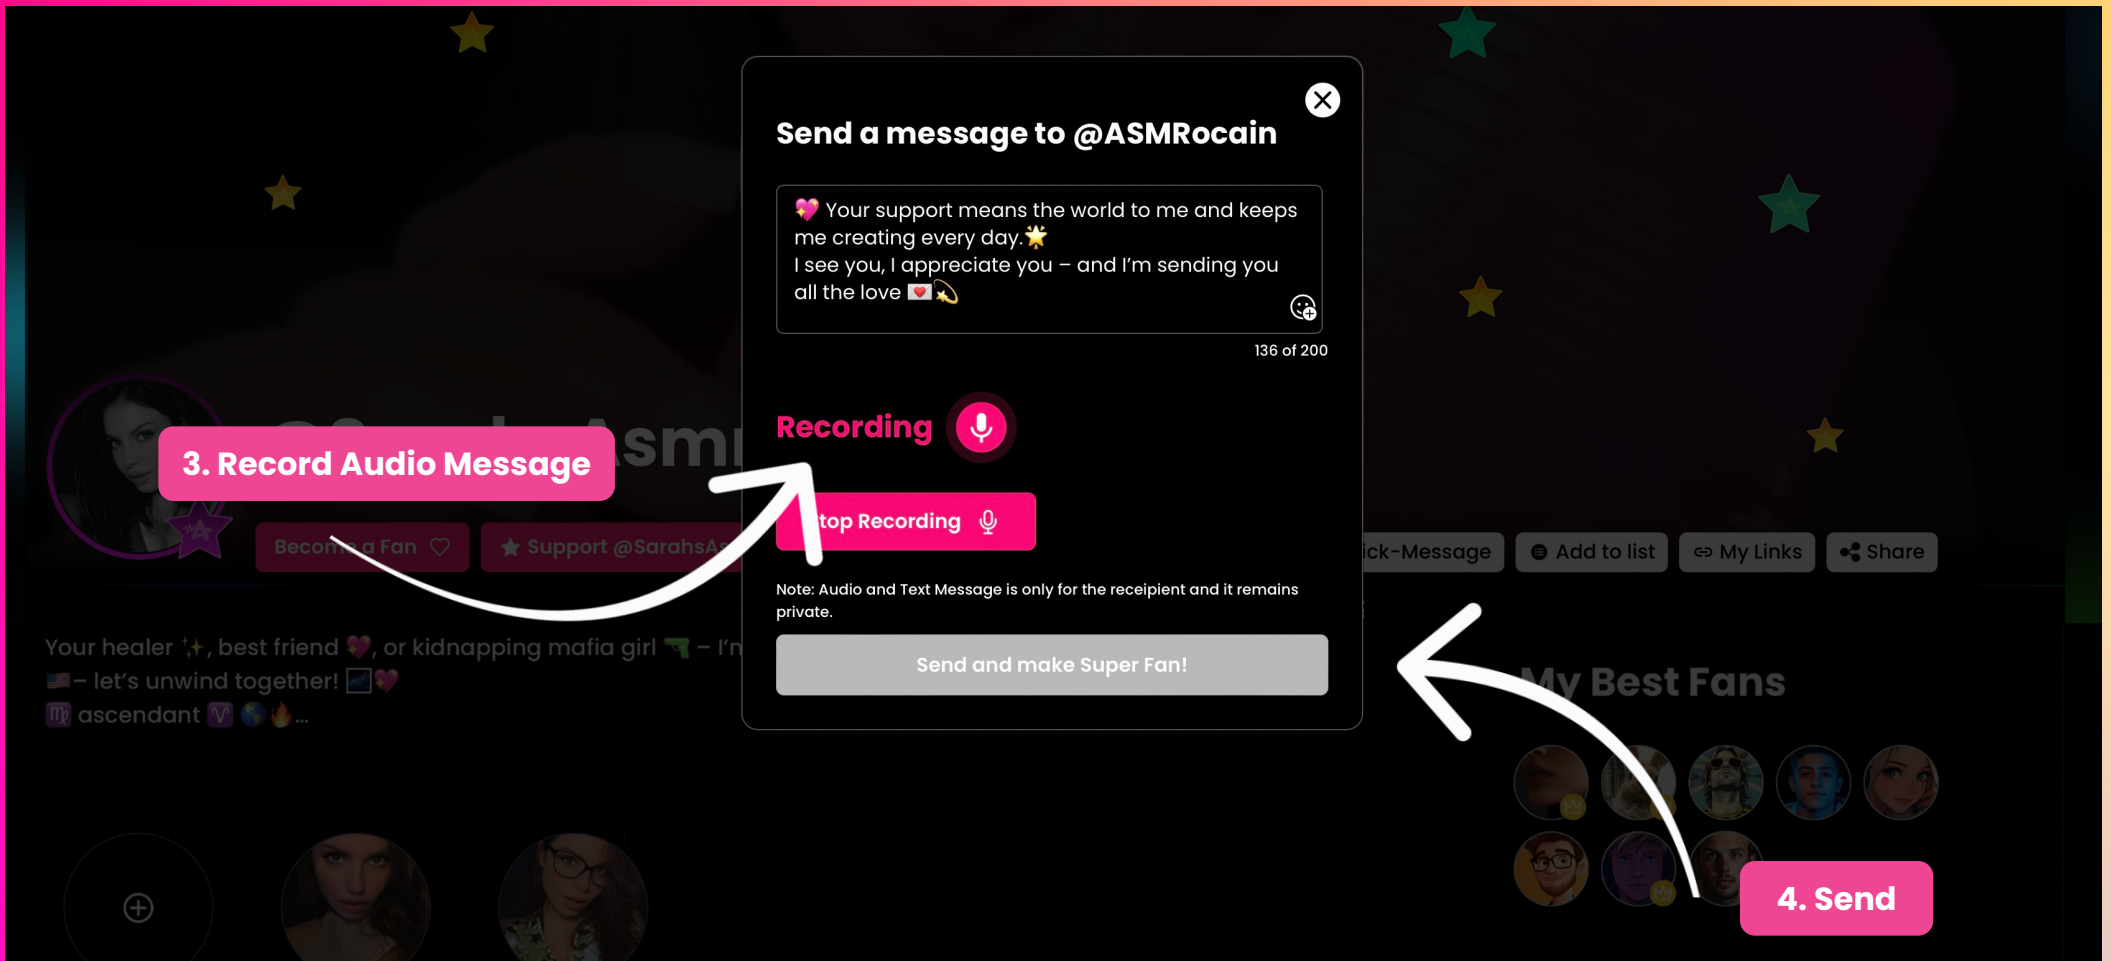

Step 2: Let's Make a Superfan

Ready to build a stronger connection?

Select one of your Best Fans by clicking on their **profile pic**.

In the next window, you'll see how much revenue they've helped you earn. Now tap **"Make Superfan"**...

Step 3: Make it Personal

You can send a **text message** – and even add a **special audio message** just for your Superfan. Only your Superfan can read and listen to it. **Because whispers mean more when they're just for you ...**

Combine Stars with Superfan Power

Tip: Announce that anyone who gives you a Star will be upgraded to Superfan status – and receive an exclusive, personalized audio message from you.

It's the perfect way to build loyalty, spark engagement, and show your biggest fans how much they mean to you.
